## THOMAS IS HERE WITH ANDY BURT

The transport Thomas after a fine trip from San Francisco arrived here yesterday morning crowded with passengers and troops. The men going to serve in the ranks are mostly raw recruits who were sent together in the country away from the coast of the States, and this is their first experience on the sea. The trip to them was very interesting and for nearly the whole distance the weather was splendid.

Among the passengers in the cabin are General "Andy" S. Burt, who, with a fine reputation during the war in Cuba. He was one of the brigade commanders at the battle of Santiago and his men won renown for themselves at the fight which took place at El Caney, when the great charge was made up the hill in the face of a murderous fire. Along with General Burt are his family.

As a personal attendant Gen. Burt has the man who at the battle of El Caney was the first to capture a Spanish flag. This is Lieutenant Butler, who won his way from the ranks in his regiment to the position with which he was rewarded for his personal bravery on the field of battle.

The Thomas will remain here until tomorrow and will then sail for Guam, as for that place she has several hundred tons of stores and much mail.

### MEADE HURRIES OFF.

The transport Meade sailed for San Francisco yesterday afternoon after taking several hundred tons of coal. She was to have taken eight hundred tons, but as that would have detained her here a couple of days longer, her commander decided to leave with just enough fuel to get to San Francisco. As the vessel should have arrived at the coast the day she came in here, and much concern will be felt for her. It was thought best to get home as quickly as possible. The Nippon Maru which left here the night before the transport arrived, will report her departure from the Orient and the fact that she was not here when the mail boat sailed. This will lead to a great deal of worry as to her whereabouts, and on account of the number of people aboard, considerable anxiety will be felt for their safety.

New York, Jan. 31.—The engagement was announced today of Miss Marie Murphy, a pretty California girl who has been playing the part of Omyan Sen, a Japanese maiden in "Liberty Bells," to John Erhardt Muhfeld, a millionaire official of the Grand Trunk Railroad. Miss Murphy is very small, very pretty and the pet of the company. The wedding will take place here in two months, and the couple will go on a non-ymoon trip to California in a special car, the present of the groom to his bride and largely built from plans suggested by the pretty actress. Miss Murphy is a native of Indiana, but went to California when a little girl. She came East four years ago and for a while was with Julia Marlowe.

"The car is a beauty," said Miss Murphy today, all but ready to start to California in it and back to Canada. A Toronto magazine had a picture of the other day of a new locomotive Mr. Muhfeld has just planned. They may think that is important, but they ought to see the car.

"Go back on the stage." Well, never in this world I won't even if there were no palace cars.

### CARNEGIE INSTITUTE.

New York, Feb. 1.—A special to the Times from Baltimore says: Dr. D. C. Gilman, president of the new Carnegie Institute in speaking of the great work before the organization, said:

"Before many days letters will be addressed to the heads of universities, colleges and technical schools in different parts of the country and to men of ability not connected with universities—astronomers, chemists, physicists, electricians, engineers and investigators of social problems. When their answers are received they will be collated and considered. Two other lines of inquiry will be instituted, one in order to ascertain the extent to which provision has already been made in this country for research, and the other to ascertain what are the methods employed in foreign countries."

### BRITISH COAST STORM.

London, Feb. 1.—The storm in the English and Irish channels is unabated. Numerous minor wrecks have occurred, frequent reports have been received of men washed overboard and the crews of the life-boats and rocket apparatus have been kept busy.

Washington, Jan. 31.—J. R. Dunn of the Chinese inspection service, stationed at San Francisco, was before the House Committee on Foreign Affairs today explaining the difficulties encountered under the present exclusion law and the need of added safeguards such as are provided in the Mitchell-Kahn bill. Dunn also answered some of the criticisms made of alleged harsh treatment of the Chinese during their detention. He said the government companies provided detention houses at San Francisco, Port Townsend and other points, which were cleaner and better than the ordinary Chinese quarters.

Andrew Furness also continued his statement showing the favorable attitude of labor organizations toward the Mitchell-Kahn bill.

BRITISH COLONEL KILLED.

London, Jan. 31.—Lord Kitchener, in a dispatch from Pretoria dated Thursday, January 30, reports that the camp of Colonel L. E. du Moulin of the Sussex Regiment was attacked by Nieuw-houdt's command, and that, after severe fighting, the Boers were repulsed. Colonel du Moulin is reported in press dispatches to have been killed.

Lord Kitchener also reports that General French captured twenty-six men belonging to Fouché's command in the northeastern part of Cape Colony, and that the command was completely scattered.

KINAU'S TRIP

The steamer Kinau had one of the roughest experiences since she has been on the Hilo run last trip. At one time the sea was so rough that it looked as if the boats which are carried at the side would be torn away from their fastenings. No damage of any kind was done, however, and the Government inspectors of steam vessels had their eyes opened to some of the weather and difficulties under which the inter-island steamers are sometimes operated.

PAIAT CONTRACT

As announced in the Bulletin several weeks ago, the Young Brothers have made all arrangements for the carrying of mail from Maui ports to the Leper Settlement on Molokai. Tomorrow they will start on their first trip with the schooner The Brothers.

In addition to her usual mail, a lead keel from the yacht Pohl is being placed on the schooner today, and she will be ready for business some time tomorrow.

TIME BALL

The United States Coast Survey will try to make arrangements for the establishment of a time ball system on the new Hackfeld building. This will be a great aid to those having chronometers to set, as under the present practice of blowing a whistle the exact time is often lost.

ARE CRITICISING GOMPERS

New York, Feb. 1.—T. Estrade, President-elect of the Republic of Cuba, whose home is at Central Valley, N. Y., has been in consultation with the members of the Cuban commission who are in this country to urge a reduction of 50 per cent of the duty on sugar imported from Cuba.

Mr. Palma declined to discuss the situation either in Washington or in Cuba for publication until he has given it further consideration.

He refused also to discuss the report that he may decline to accept the presidency of the republic unless tariff concessions are made.

GOOD BILLIARD CONTEST

New York, Feb. 1.—Martin Mullan, the millionaire billiardist of Cleveland, former class A champion of the A. A. U., has met W. M. Sigourney, the Pacific Coast champion, in an interesting practice game at the Knickerbocker Athletic Club.

Mullan was in excellent form and outplayed his opponent from start to finish. He made an average of 16 15-34 and one run of 53. The score was 400 to 223.

## Arbitration Planned for Boston Strike

New York, Feb. 1.—Ralph M. Sasi, secretary of the Industrial Commission of the Civic Federation announced today that a meeting of the commission will be held February 19th in this city to discuss the best method of reaching the various sections of the country. The teamsters' strike in Boston will bring to a head the plans so far under advisement. On this subject Mr. Sasi said: "The plan as immaturely prepared is as follows: We will be forced to appoint auxiliary arbitration committees in all of the large labor centers. It will be necessary to form these committees of representative labor men and employers of those districts."

"One can see at a glance the national scope that the industrial commission will take on when this plan has been adopted. Then labor differences can be taken up and settled immediately."

### PALMA WON'T TALK.
